LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 40, ANTELOPE VALLEY EMERGENCY RELOCATION OF 20-INCH-DIAMETER WATER MAIN AT AVENUE K AND 10TH STREET WEST

On September 12, 2004, W. A. Rasic Construction, Inc., was called to relocate approximately 20 feet of a 20-inch-diameter water main at the intersection of Avenue K and 10th Street West in Lancaster.

During the construction of a City of Lancaster's 54-inch storm drain along Avenue K, the City's contractor discovered that the 54-inch storm drain alignment conflicted with our 20-inch-diameter water main. Therefore, we needed to hire one of the emergency contractors to relocate our water main to avoid delaying the City's contractor. The work was completed on September 22, 2004, at an estimated cost of \$50,000.

W. A. Rasic Construction, Inc., is one of five as-needed, on-call emergency contractors with contracts approved by your Board on December 1, 2003. We committed to reporting to your Board all emergency repairs carried out under these contracts.
